

Superintendent's Message

September 2014

Heading into the Fall Season we have the school year in full swing! Students and staff did a great job dealing with hot days the first few weeks of school. I am so impressed with the great effort and cooperation our faculty, staff, and especially the students have provided this school year. I have made an effort to be visible and accessible within the buildings, and have observed some great learning opportunities and collaboration. The other obvious occurrence is the great partnerships with parents and community to provide a quality education. As a school district we are so thankful for that support.

Currently, we have staff trainings to improve our instructional strategies with the ultimate goal of improved student achievement for Findlay City Schools. We continue to provide quality professional development and support collaboration for faculty and staff in the hope of continued growth. A team attitude has been discussed throughout the district with our ultimate goal of showing our students the caring and compassion in them as a person as well as growth as a student.

Not only are we proud of our student's academic success, but we are proud of all the extra-curricular events and activities that Findlay City Schools provide. We are blessed to have so many talented students to perform in our various events and activities. I encourage you to check our website for upcoming events where you can see our best and brightest students participate and perform. They are extremely talented!
